# Codebook for "Getting the Message? Choice, Self-Selection, and the Efficacy of Social Movement Arguments"

This document provides a codebook for the variables contained in df\_mtg.rda, a dataframe containing responses from the MTurk Sample and df\_qg.rda, a dataframe containing responses from the Qualtrics Sample.

# Design Variables

# $resp\_id$

- Variable name: resp\_idQuestion wording: N/A
- Response type: Numeric
- Response values: MTurk range [1 to 1137], Qualtrics range [1 to 1000]
- Notes: Unique identifier for respondents

## weights

- Variable name: weights
- Question wording: N/A
- Response type: Numeric
- Response values: MTurk range [1 to 2.183], Qualtrics range [1 to 1.79]
- Notes: Weights used for calculating ACTE

#### treatment

- Variable name: treatment
- Question wording: N/A
- Response type: Character
- Response values: "Control", "Selection", "Treatment"
- Notes: Indicator of treatment status (Experiment, randomly assigned to "Control", Experiment, randomly assigned to "Treatment", or "Selection" condition given choice to select or avoid treatment )

#### balance

- Variable name: balance
- Question wording: N/A
- Response type: Chacter
- Response values: "Avoid Treatment", "Experiment", "Select Treatment"
- Notes: Indicator primarily used by to compare respondents who selected treatment to those who avoided treatment

## $\mathbf{C}$

- Variable name: C
- Question wording: N/A
- Response type: Character
- Response values: "Choice", "Experiment"
- Notes: Indicator denoting whether respondent was assigned to choice or experiment conditions

## D\_ch

- Variable name: D\_ch
- Question wording: N/A
- Response type: Chatacter
- Response values: "Control", "Female", "Male"

• Notes: Indicator used to estimate CACTEs denoting whether respondents in choice condition who opted to avoid treatment were assigned to receive treatment attributed to an alternative "Female", treatment attributed to a "Male", or no treatment ("Control")

#### select01

- Variable name: select01
- Question wording: N/A
- Response type: Numeric
- Response values: 0=avoid treatment, 1= select treatment, NA
- **Notes:** Indicator denoting whether respondents in choice condition selected to read the treatment (1) or avoid it (0)

#### avoid01

- Variable name: avoid01
- Question wording: N/A
- Response type: Numeric
- Response values: 0=select treatment, 1= avoid treatment, NA
- **Notes:** Indicator denoting whether respondents in choice condition selected to read the treatment (0) or avoid it (1)

# **Outcome Variables**

#### $dv_1$

- Variable name: dv\_1
- Question wording: Using the following scale, where 0 means you completely disagree, 100 means you completely agree, and 50 means you neither agree nor disagree, how strongly would you agree or disagree with the following statements: The MeToo movement can sometimes go too far (reverse coded)
- Response type: Numeric
- Response values: 0-100: 0 = Completely Agree, 50 = neither agree nor disagree 100 = Completely Disagree
- Notes: Used in principal components analysis with dv\_2 and dv\_3 to construct dv\_pca\_metoo

# $dv_2$

- Variable name: dv 2
- Question wording: Using the following scale, where 0 means you completely disagree, 100 means you completely agree, and 50 means you neither agree nor disagree, how strongly would you agree or disagree with the following statements: I support the Me Too movement
- Response type: Numeric
- Response values: 0-100: 0 = Completely disagree, 50 = neither agree nor disagree 100 = Completely Agree
- Notes: Used in principal components analysis with dv\_1 and dv\_3 to construct dv\_pca\_metoo

# $dv_3$

- Variable name: dv\_3
- Question wording: Using the following scale, where 0 means you completely disagree, 100 means you completely agree, and 50 means you neither agree nor disagree, how strongly would you agree or disagree with the following statements: #MeToo helps raise awareness about sexual assault, harassment and discrimination
- Response type: Numeric

- Response values: 0-100: 0 = Completely disagree, 50 = neither agree nor disagree 100 = Completely Agree
- Notes: Used in principal components analysis with dv\_1 and dv\_2 to construct dv\_pca\_metoo

#### $dv_4$

- Variable name: dv 4
- Question wording: Using the following scale, where 0 means you completely disagree, 100 means you completely agree, and 50 means you neither agree nor disagree, how strongly would you agree or disagree with the following statements: Sexual harassment and assault are still far too common in the U.S.
- Response type: Numeric
- Response values: 0-100: 0 = Completely disagree, 50 = neither agree nor disagree 100 = Completely Agree
- Notes: Used in principal components analysis with dv\_5 and dv\_6 to construct dv\_pca\_general

### $dv_5$

- Variable name: dv 5
- Question wording: Using the following scale, where 0 means you completely disagree, 100 means you completely agree, and 50 means you neither agree nor disagree, how strongly would you agree or disagree with the following statements: In general, women have the same rights and opportunities as men (reverse coded)
- Response type: Numeric
- Response values: 0-100: 0 = Completely Agree, 50 = neither agree nor disagree 100 = Completely Disagree
- Notes: Used in principal components analysis with dv\_4 and dv\_6 to construct dv\_pca\_general

#### dv 6

- Variable name: dv\_6
- Question wording: Using the following scale, where 0 means you completely disagree, 100 means you completely agree, and 50 means you neither agree nor disagree, how strongly would you agree or disagree with the following statements: Concerns about gender inequality are overblown (reverse coded)
- Response type: Numeric
- Response values: 0-100: 0 = Completely Agree, 50 = neither agree nor disagree 100 = Completely Disagree
- Notes: Used in principal components analysis with dv\_4 and dv\_5 to construct dv\_pca\_general

# dv\_pca\_metoo

- Variable name: dv\_pca\_metoo
- Question wording: N/A
- Response type: Numeric
- Response values: MTurk Range [-3.39, to 1.86] Qualtrics range [-3.70, to 1.46]
- Notes: Constructed from a principal components analysis of dv\_1, dv\_2, dv\_3

#### dv\_pca\_general

- Variable name: dv\_pca\_general
- Question wording: N/A
- Response type: Numeric
- Response values: MTurk Range [-3.79, to 1.63] Qualtrics range [-1.81 to 2.75]
- Notes: Constructed from a principal components analysis of dv\_4, dv\_5, dv\_6

#### $dv_fact$

- Variable name: dv fact
- Question wording: How many sexual assaults do you think are not reported to the police?
- Response type: Numeric
- Response values:
  - -1 = Two out of three (66 percent) (correct answer)
  - -2 =One out of four (25 percent)
  - -3 =One out of ten (10 percent)
  - -4 =Four out of five (80 percent)
- Notes: Used to construct dv\_fact01

#### $dv_fact01$

- Variable name: dv\_fact01
- Question wording: How many sexual assaults do you think are not reported to the police?
- Response type: Numeric
- Response values: 1 if dv\_fact = 1, 0 otherwise
- Notes:

### $dv\_text$

- Variable name: dv\_text
- Question wording: Do you have any opinions you'd like to share about the Me Too movement?
- Response type: Character
- Response values: N/A
- Notes: Respondents could provide up to 1,000 character open response. Used to construct dv\_response01 and dv\_response\_length

#### dv\_response01

- Variable name: dv\_response01
- Question wording: Do you have any opinions you'd like to share about the Me Too movement?
- Response type: Numeric
- Response values: 1 if respondent provided more than a single word response to dv\_text 0 otherwise.
- Notes:

# $dv\_response\_length$

- Variable name: dv\_response\_length
- Question wording: Do you have any opinions you'd like to share about the Me Too movement?
- Response type: Numeric
- Response values: 0-1000
- Notes: Variable measures the total number of characters respondents wrote in reply to dv\_text

# Covariates

# gender

- Variable name: gender
- Question wording: What is your gender?
- Response type: Numeric
- Response values:
  - -0 = Male
  - -1 = Female-3 = Other

• Notes:

#### female01

- Variable name: female01
- Question wording: What is your gender?
- Response type: Numeric
- Response values: Coded 1 is gender=1, 0 otherwise.
- Notes:

#### Gender

- Variable name: Gender
- Question wording: What is your gender
- Response type: Character
- Response values:
  - "Men" if female 01 = 0
  - "Women" if female 01 = 1
- Notes: Formatted variable for use as labels in function

#### age

- Variable name: age
- Question wording: What is your age in years?
- Response type: Numeric
- Response values: MTurk range [18-82], Qualtrics Range [18-93]
- Notes:

### income

- Variable name: income
- Question wording: Which of the following best indicates how much money your family's total income was this past year
- Response type: Numeric
- Response values:
  - -1 = Less than \$10,000
  - -2 = \$10,000 \$19,999
  - -3 = \$20,000 \$29,999
  - -4 = \$30,000 \$39,999
  - -5 = \$40,000 \$49,999
  - -6 = \$50,000 \$59,999
  - -7 = \$60,000 \$69,999
  - -8 = \$70,000 \$79,999
  - -9 = \$80,000 \$89,999
  - -10 = \$90,000 \$99,999
  - -11 = \$100,000 \$149,999
  - -12 = More than \$150,000
  - NA = Prefer not to say/No response
- Notes:

# education

- Variable name: education
- Question wording: What's the highest level of education you've completed?

- Response type: Numeric
- Response values:
  - -1 = Less than high school
  - -2 = High school graduate
  - -3 = Some college
  - -4 = 2 year degree
  - -5 = 4 year degree
  - -6 = Professional degree
  - 7 = Doctorate
- Notes:

## pid

- Variable name: pid
- Question wording: Generally speaking do you think of yourself as a Democrat, Republican, Independent, Other. Would you call yourself a... Not very strong Democrat/Republican, Strong Democrat/Republican [If initial response = Democrat or Republican] Would you consider yourself closer to the Republican Party, the Democratic Party, Neither [If initial response = Independent or Other]
- Response type: Numeric
- Response values:
  - -1 = Strong Democrat
  - -2 = Not very strong Democrat
  - -3 = Independent lean Democrat
  - -4 = Independent/Other
  - -5 = Independent lean Republican
  - -6 = Not very strong Republican
  - -7 = Strong Republican
- Notes:

## Partisanship

- Variable name: Partisanship
- Question wording: "Generally speaking do you think of yourself..."
- Response type: Character
- Response values:
  - "Republicans" if pid > 4
  - "Democrats" if pid < 4
- Notes: Formatted variable for use as labels in function Constructed from pid

#### ideo

- Variable name: ideo
- Question wording: We hear a lot of talk these days about liberals and conservatives. Here is a seven-point scale on which the political views that people might hold are arranged from very liberal to very conservative. Where would you place yourself on this scale?
- Response type: Numeric
- Response values: 1 = Extremely liberal 2 = Liberal 3 = Slightly liberal 4 = Moderate, middle of the road 5 = Slightly conservative 6 = Conservative 7 = Extremely conservative
- Notes:

#### non\_white

- Variable name: non\_white
- Question wording: What racial or ethnic group best describes you? Please select all that apply
- Response type:

- Response values: Coded 0 if respondent identies as white, 1 otherwise White Black or African American American Indian or Alaska Native
  - Asian Native Hawaiian or Pacific Islander Hispanic or Latino Other
- Notes:

#### black

- Variable name: black
- Question wording: What racial or ethnic group best describes you? Please select all that apply
- Response type:
- Response values: Coded 1 if respondent identies as Black, 0 otherwise
  - White
  - Black or African
  - American American Indian or Alaska Native
  - Asian
  - Native Hawaiian or Pacific Islander
  - Hispanic or Latino
  - Other
- Notes:

#### latino

- Variable name: latino
- Question wording: What racial or ethnic group best describes you? Please select all that apply
- Response type:
- Response values: Coded 1 if respondent identies as Hispanic or Latino, 0 otherwise
  - White
  - Black or African
  - American American Indian or Alaska Native
  - Asian
  - Native Hawaiian or Pacific Islander
  - Hispanic or Latino
  - Other
- Notes:

#### asian

- Variable name: asian
- Question wording: What racial or ethnic group best describes you? Please select all that apply
- Response type:
- Response values: Coded 1 if respondent identies as Asian, 0 otherwise
  - White
  - Black or African
  - American American Indian or Alaska Native
  - \_ Asian
  - Native Hawaiian or Pacific Islander
  - Hispanic or Latino
  - Other
- Notes:

#### fam\_movement

- Variable name: fam\_movement
- Question wording: "How familiar are you with the Me Too social movement?"
- Response type: Numeric

# • Response values:

- -0 = Not familiar at all
- -1 = Slightly familiar
- -2 = Moderately familiar
- -3 = Very familiar
- -4 = Extremely familiar
- Notes:

# **Familiarity**

- Variable name: Familiarity
- Question wording: "How familiar are you with the Me Too social movement?"
- Response type: Character
- Response values:

  - $\begin{array}{l} \text{-``Familiar'' if fam\_movement} > 2 \\ \text{-``Unfamiliar'' if fam\_movement} < 3 \end{array}$
- Notes: Formatted variable for use as labels in functions. Constructed from fam\_movement
